LEEDY RESOLUTION TO BE ACTED UPON

Senate to Take Vote on Rejection or Ratification of Amendment

ACTION IS NOT FINAL

Parliamentarians Insist New Resolution Has Not Altered Status of Issue Before Legislature.

Richmond, Feb. 2.—Fight on the Susan B. Anthony Federal suffrage amendment in the Senate will be precipitated tomorrow, the date for consideration of the Leedy resolution rejecting the amendment having been set for 12.30 o'clock. The resolution was made a special and continuing order for the morning hour. The Senate Committee on Privileges and Elections has favorably reported the Leedy resolution.

Scenes which marked consideration of the Anthony amendment in the House last week are not expected to be re-enacted in the Senate. Senator C. O'Conor Goolrick, of Fredericksburg, has stated that the upper branch would not quibble, as did the House, but will vote either to ratify or reject.

Inasmuch as the Rew resolution, passed by the House last Tuesday, referring the question of suffrage for women to the people for settlement at the polls, was not a joint resolution, the whole matter of ratification or rejection, it is argued, again will have to be taken up by the lower body.

John W. Williams, clerk of the House, and recognized as well versed in parliamentary procedure, holds that adoption of the Rew resolution amounted only to a motion to pass by the resolution calling for rejection. Introduced by Thomas W. Ozlin, of Lunenburg. Mr. Williams is of the opinion that the status of the suffrage question is the same as it was when Gov. Davis transmitted the Anthony amendment to the General Assembly.

It is believed that the House will await action of the Senate on the Leedy resolution to reject before proceeding further. Delegate Ozlin, pilot of the House resolution to reject, has indicated that he is merely awaiting a favorable opportunity to again bring the question to the fore. Should the Senate adopt the Leedy resolution it would appear, according to those who have given the matter careful thought, that the House will take similar action, as it is well known that a majority of its members are hostile to the Anthony amendment.

Defeat of the Leedy resolution in the Senate and adoption of the Ozlin resolution in the House probably would precipitate the bitterest fight of the session for concurrent action, members of the General Assembly declare.

RESCUE SIX FROM RIVER

Found Clinging to Barrel and Driftwood Until Schooner Appears and Picks Them up

Newport News, Va., Feb. 2.—With the mercury standing at 10 above zero, six men were rescued Saturday night from the James River by Captain F. Slater, of the schooner Navahoe. The men had been in the water for more than six hours and were more dead than alive when rescued. They declared their "bugeye" had foundered with them early in the day and they had been clinging to a barrel and driftwood until the schooner appeared.

PRESIDENT COMING SOUTH

Use of Larger Winter Residences at Southern Pines Placed at His Disposal

Pinehurst, N. C., Feb. 2.—President Wilson is expected to visit North Carolina very shortly, it was reported last night. One of the larger winter residences at the Southern Pines is said to have been placed at the President's disposal for the period of his visit.

START BIG STRIKE

Steamships Bound for Boston Have Been Diverted to Other Ports

Boston, Mass., Feb. 2.—Diversion to other ports of steamships bound here was begun Friday because of the strike of 1,200 freight handlers. With dock space scant and wharves piled high with accumulating freight the Shipping Board steamer National Bridge was ordered by wireless to bring her cargo from Chilean ports to New York, instead of this port. Fifteen other vessels are due within a few days and if settlement of the strike is not in sight, most of them will be similarly diverted.

The Freight Handlers' Union countered the diversion of vessels with a message to affiliated Freight Handlers and Longshoremen's Unions in New York, Baltimore and other parts announcing "strike on in Boston; look out for diverted ships." Meatime many of the men who struck while receiving 43 cents an hour took temporary jobs as snow shovelers at rates of 60 to 90 cents an hour and leaders said that as long as there was snow on the ground the strike would be without cost to the men.

Railroad officials and labor leaders alike said settlement of the trouble could come only from Washington, where the demands of the freight handlers for a revised scale of wages are pending with the Railroad Administration. A decision on the freight handlers' demands will be made by Director General Hines not later than February 4, according to a letter today from P. J. Coyle, grand president of the Brotherhood of Railroad Station Employes. Mr. Coyle said he had been in conference with Mr. Hines. The director general, extended thanks to the freight handlers on the New Haven system for remaining at work.

PICTURED AS DESERTER

United States Walked Away After Victory, Leaving Comrades Helpless

London, Feb. 2.—From the European point of view, America has assumed the position of a fortunate combatant, who, when the battle is won, walks away leaving his wounded comrades in the current issue of The Observer.

"That thought is very bitterly and genuinely left in Europe," Garvin asserts.

Because of the influence of President Wilson, Garvin says, the Versailles treaty was framed on the assumption of American co-operation in its enforcement. Europeans would have made much different arrangements had they known they would be forced to depend upon themselves alone, Garvin adds.

The writer, who is known as one of the sanest of British commentators on international affairs, criticizes the tone of Secretary Glass' letter to the United States Chamber of Commerce as 'tactless." He advocates, however, that Europe exercise "patience in the spirit of the letter of Viscount Grey of Falloden which urged acceptance by Great Britain of the American Senate's reservations to the peace treaty."

The reservations should be accepted no matter how "anomalous and one sided they may seem to theory," Garvin believes.

He points out that Great Britain might equalize matters by reservations of her own, but declares the league of nations must be constituted at all costs as a consultative system.

"Let's meet the United States so liberally and boldly as to leave them no rag of a decent excuse for staying out of the league," Garvin advises, urging the British people to "forget their wrath and look at both sides of the question."

BILL WOULD AMEND CONFISCATION ACT

Measure Gives Owners of Automobiles a Chance

ACT IS NOW IN HOUSE

Owner of Car Confiscated Under Mapp Law Can Recover Same Under Certain Conditions.

Richmond, Feb. 2.—Relief is in sight for owners of automobiles whose cars are confiscated by the State because they carry ardent spirits, although, as sometimes is the case, without the khowledge of consent of the owner. Under the provisions of the Mapp prohibition bill ignorance of what use the car is to be put is no defense.

It is because of the harshness of this particular section of the Mapp bill that elegate E. Hugh Smith, of Northumberland, introduced in the House several days ago a bill amending the present act and which if it becomes law will overrule the decision of the Virginia Supreme Court of Appeals in the case of Landers vs. the Commonwealth.

The amendment would make the finding of whiskey in an automobile prima facie evidence that it was there with the knowledge and consent of the owner, but, unlike the Mapp bill, offers an opportunity for the owner to prove that he was unaware of the purpose to which the car was to be put.

The amendment was yesterday favorably reported by the House Committee on Moral and Social Welfare. It is believed that it will pass the House when it comes up on the floor probably during the coming week.

Under the existing law, if the state proves that a car found to contain whisky is being used with the permission of the owner, although he may be ignorant of the fact, that it is to be used to transport intoxicants, it is empowered to confiscate the machine. If the car was stolen, or is being used without the knowledge or consent of the owner, the State cannot confiscate it.

TO MAKE SILK IN VIRGINIA

Branch of New Jersey Plant Soon to Get Busy at Grottoes, in Buckingham County.

Harrisonburg, Va., Feb. 2.—The silk factory being built at Grottoes by the Puritan Silk Company, of Paterson, N. J., and to be operated as a branch of the big New Jersey factory is to be a brick and concrete building 300 feet long and forty-five feet wide. It is to be equipped with all of the necessary machinery, including 140 silk weaving looms. Other machinery will be for knitting, dyeing, napping etc.

The company will put in its own electric power plant of not less than forty horse power. Later the mills will be enlarged by the erection and equipment of a two-story building of the same dimensions of the initial structure. The looms in the initial building will probably be put to work early in spring.

KILLED BY CAR

Clifton Stump Former Resident Meets Death in Washington

Clifton Stump son of Rev. J. P. Stump, formerly pastor of the M. E. Church South in this city, was found dead on a street in Washington sometime last night. It is not known whether he was struck by an automobile or a street car. The deceased had for some time been a resident of Washington. He was well known in Alexandria, having been a vocalist. Rev. Mr. Stump is now stationed at Goldsboro, Md.

The deceased lived in Washington and is survived by his wife and two daughters.

MASONIC NOTICE

A meeting of Andrew Jackson Lodge of Masons, will be held tonight and every Monday night here after until further notice. By order of the worshipful master.

J. E. Alexander, Secty. 28-1c.

TIME EXTENDED

Automobilists Given Until February 15th to Procure Licenses

Chief of Police Goods has received the following from B. O. James, Secretary of the Commonwealth:

Chief of Police, Alexandria, Va.

Dear Sir:—Owing to the volume of applications which has come to this office since the first of the year we have been unable to fill orders for automobile licenses as promptly as we would like, and I would suggest that you extend the time limit for the use of 1919 tags until, say, February 15th. I hope by this time to have cleaned up all applications.

Secretary of the Commonwealth.

The District of Columbia has also extended the time to procure licenses to February 15th.

Yours truly,
B. O. James,

MIDDLETON-FEATHERSTONE

The marriage of Miss Mary Emma Middleton, of Prince George county, Md., and Robert F. Featherstone, formerly of Amelia county, Va., but more recently of this city, took place at 4:30 o'clock Saturday afternoon at the parsonage of St. Mary's Catholic Church.

The ceremony was performed by Rev. L. K. Kelly.

The couple were attended by Mr. and Mrs. Wm. H. Thorne, of Braddock, Alexandria counyt, with whom they will reside after February 15.

SPORTS

Tonight, the 5th Engineers and the Lyceum quints stack up in a City Basketball League Game at the Armory, starting at 8 o'clock, and a snappy game is on the cards. Friday the Engineers defeated the Dreadnoughts, 34 to 33, in a rattling melee, and the Bridge Builders expect to repeat tonight at the expense of the Lyceums. Manager Wheeler of the Maroon and White five will present his strongest line up to stop the rush of the Soldier athletes.

Saturday night, the Yankees of Washington defeated the Dreadnoughts in one of the best games seen here this season, 34 to 27. The Dreadnoughts were in the lead at half time, 19 to 17, but when the teams started again the visitors started scoring, and not headed. Schrader and Crilly led the scoring for the Dreadnoughts, while Roberts and Driefus played good defensive games. Sauber starred for the Washington aggregation.

The Dreadnoughts are dickering for a game Wednesday night with two mighty good teams, the Washington Marines and the Ingrams. Business Manager Corbett declared this morning that every effort would be made to have a first class team face the Dreadnoughts Wednesday night at the Armory.

Thursday night, the Aloysius Club of Washington meets the American Legion team, and another good court game should result. While the Yankees defeated the Aloysius quint after a hard and spirited contest, recently in Washington it was only and the local boys will have to go at a top speed throught to bring home the bacon.

A meeting of the Alexandria City Basketball League will be held tonight at 7 o'clock at the Community Center. Managers of all teams are requested to attend.

RITES FOR LAWRENCE WASHINGTON

The funeral of Lawrence Washington a former resident of Alexandria, who for many years was employed at the Congressioanl Library, Washington, took place Saturday from Mount Zion Episcopal Church, Charles Town, W. Va. Services were conducted by Rt. Beverly D. Tucker, bishop of Southern Virginia, assisted by Rev. John S. Alfriend, rector of Mount Zion Church. Burial was made in the church yard cemetery.

The burial was with Masonic honors, the rites being conducted by Alexandria Washington Lodge of Masons.

The following members of that lodge from this city took part in the services: Charles H. Callahan, Claude W. Fletcher, Thomas W. Robinson, F. W. Latham, A. C. Moss, Ernest L. Allan, C. T. Goods, George W. Zachary, T. L. Hall. All except Messrs. Callahan, Hall and Zachary were pallbearers

SHORT-LIVED STRIKE; ENDS IN TWO HOURS

W. B. and A. Motormen and Conductors Soon Return to Work

SERVICE IS CRIPPLED

Company Said to Have Yielded to Demands of Employees—No Further Trouble Anticipated

Washington, Feb. 2.—One hundred and eighteen motormen and conductors on the Washington, Baltimore and Annapolis Railway, who went on a strike for higher wages at 4 o'clock this morning returned to work at 6.25 the company officials having yielded to a settlement in the employes' favor it is said. The terms of the settlement reached at 6.20 were not made public.

Train service between Washington and Baltimore was greatly delayed today. The first two early trains—6 and 6.03—did not run. As there are usually only a few passengers on those trains, little inconvenience was caused. The first train from Washington left at 7.18, half an hour late

A train from Baltimore arrived here shortly after 8 o'clock and left at 8.30. Only two trains reached Washington between 6 and 9, while eight trains were due.

DIES SUDDENLY

Miss Annie Hartley Expires After Returning From Church Today

Miss Annie Hartley, an old and well known resident, dropped dead at 11 o'clock this morning at the home of her nephew, Mr. M. Downey, 413 Duke street, with whom she made her home. She had just entered the house, after attending the Candlemas day services at St. Mary's Catholic church and was apparently in the best of health. Upon reaching the stairway landing on the second floor she expired. Heart trouble is thought to have been the cause of her death.

Miss Hartley is survived by a sister, Mrs. Margaret Stone, Richmond, and the following nephews. Messrs. M. Downey, E. E. Lawler, Nicholas J. Lawler, John N Lawler and a niece, Mrs. Ella Lawler Ryan, last named of Richmond, together with a grandniece, Miss Virginia Downey and grand nephews Messrs. Leo. T. Downey and Julian Downey. The arrangements for the funeral have not yet been made.

IN MEMORIAM

In sacred and cherished memory of our precious son, Herbert D. Young, Jr., who went to be with Jesus February 2, 1918, from Alexandria Hospital.

The reaper came one morning
He came to gather flowers,
And from among the lillies
That day, He gathered ours.
No one knows how much we miss you,
No one sees the tears we shed
But in Heaven we're going to meet you
Where no farewell tears are shed.
Devotedly loved and sadly missed.

By Mother and Father,
Ensign and Mrs. H. D. Young,

SAYS DRUGGISTS ARE HUMAN

A Washington paper this morning published a statement that physicians informed their representative that he was compelled to let his patients suffer because the drug stores of this city were closed. The drug stores were open all day yesterday from 10 a. m. to 8 p. m.. Druggists are but human and require rest and recreation the same as other humans. The hours that they work are longer than in any other profession or business but it can be truly said that they never refuse to do all in their power for the sick day or night.

GROUND HOG DAY

Old Sol refused to shine this morning, to the great relief of many people in the twentieth century who believe that should the sun shine today six weeks of wintry weather will intervene before balmy spring comes to us.

The second of February has for several thousand years been regarded with anxiety. Probably before the siege of Troy farmers watched with apprehension the breaking of the morn on the second day of the second month. Sunshine was regarded as an evil omen. Wintry weather extending five or six weeks was believed to be inevitable. The ancients did not associate the ground hog with the forecast. Later German farmers coupled the shadow of the skunk with February 2nd.

About as many people are concerned over meterological condition on February 2nd as there were at the advent of Romulus into this world.

Fog hung over the Potomac today, while frost first whitened the earth. The wind was from the southeast, and there was but little evidence that the rodent would see his shadow. If the vulgar belief holds good, we should have an early spring.

About half of the winter 1919-1920 has passed away. There have been twenty-six deaths of white adults in Alexandria during the month of January. Considering the present increased population, this was about an average for the month.

February is an anxious month for many. Cases of grip, influenza etc., are generally more numerous at this time, owing to sudden changes in temperature. Some of the worst blizzards that have visited this section have come upon us in the middle of February, e. g. that of 1899.

But the sun is gradually making its way north, and longer days are now in evidence, and it will not be long ere gentle spring will be in evidence again.

WOES OF NATURALIST'S WIFE

It is proverbial that the wives of literary geniuses have been fated to undergo more than ordinary domestic ordeals with their famous yokemates from Socrates's Xantippe (much and unjustly maligned woman) to Mrs. Thomas Carlyle, Mrs. Charles Dickens and Mrs. Bulwer. But the wife of a naturalist must be possessed of fortitude and poise to exceed to endure the life indicated by Elizabeth Cary Agassiz with her famous husband in her biography recently published. The Knoxville Sentinel says it is a piquant mixture of letters, narrative science and history, says a reviewer. "In a hurry to prepare for church, I ran to my cupboard for my boots," writes Mrs. Agassiz, "when I seized the tail of a good sized snake. I called to Mr. Agassiz, who was still sound asleep, that there was a serpent in my closet. 'Oh, yes,' he murmured sleepily, 'I brought in several in my handkerchief last night. Probably they have escaped. I wonder where they others are?" He rose to secure the precious monsters, in leisured fashion, and expected his wife to admire their beauty when they were assembled. At another time a young bear, held in duress in the cellar, rose and broke his chain and ascended to the dining room, which the guests quitted by the opposite door, leaving the dinner to him.

WASTE OF PAPER

The waste of white paper by government departments came in for another attack Saturday in the Senate. Senator Smoot, Republican, Utah, lugged into the chamber a volume the size of a bushel basket, with the explanation that it was a compilation of the speeches already made in the Senate on the peace treaty and printed in the Congressional Record. The book, said Senator Smoot, contained more than 7,300,000 words. He added that he had started to compile also the separate articles relating to the treaty, which had been inserted in the Record, but had given up because he found such a collection could not be brought together in "any reasonable number of books."

Senator Smoot attacked government departments for what he characterized as a "wicked" waste of paper, and announced that he would have soon a tabulated statement showing just how many tons had been used by each department.

Senator Sherman, Republican, Illinois, said departmental mail had "become a pest even to country newspaper editors, the knights of scissors and paste pot," adding:

"They get so much of it they are unable to open it without the aid of private secretaries."

The Gazette has received its full quota of government publications, circulars on various drives, etc., during the past few years. It has not gone to waste with us, as it fits the typewriter, and the blank sides are used for editorial paper, as well as for pasting copy. We have enough in stock to last many years. In most cases it is not taken from the envelopes, but piled up and used in the spectum as wanted.

VEST'S ENDURING MONUMENT

Before his death in 1904 Graham Vest, who spent a quarter of a century as a Missouri member of the United States Senate, wished to be remembered by succeeding generations as a great statesman. However, the addresses by the Senator are forgotten, whereas a few words he spoke to a jury in the days that preceded his long service at Washington have become his enduring monument. It is an old story, but many of the present generation never heard it.

It was a dog trail. One man had killed another's dog and the owner had gone to law about it. Vest, the attorney for the plaintiff, took few notes and did not seem interested in the witnesses or their testimony. When the last witness had been examined and the counsel for the defense had made his closing argument to the jury of 12 Missourians, Vest rose and, in a voice charged with sympathy, said:

"The best friend a man has in this world may turn against him and become his enemy. His son or daughter that he has reared with tender care may prove ungrateful. Those who are nearest and dearest to us, those whom we trust with our happiness and our good name, may become traitors to their faith.

"The money that a man has he may lose. It flies away from him perhaps, when he needs it most. A man's reputation may be sacrificed in a moment of ill considered action. The people who are prone to fall on their knees to do us honor when success is with us may be the first to throw the stone of malice when misfortune settles its cloud upon our heads.

"The one absolute, unselfish friend that a man can have in this selfish world, the one that never deserts him, the one that never proves ungrateful or treacherous, is his dog.

"A man's dog stands by him in prosperity and in poverty, in health and in sickness. He will sleep on the cold ground, where the wintry winds blow and the snow drives fiercely, if only he be near his master's side. He will kiss the hand that has no food to offer, he will lick the wounds and sores that come in the encounter with the roughness of the world. He guards the sleep of his pauper master as if he were a prince. When all other friends desert, he remains.

"When riches take wings and reputation falls to pieces, he is as constant in his love as the sun in its journey through the heavens. If fortune drives the master forth an outcast in the world, friendless and homeless, the faithful dog asks no higher privilege than that of accompanying him, to guard him against danger, to fight against his enemies.

"And when the last scene of all comes, and death takes his master in its embrace and his body is laid away in the cold ground, no matter if all other friends pursue their way there by the graveside will the noble dog be found, his head between his paws, his eyes sad but open in alert watchfulness, faithful and true even to death."

This eulogy of the dog made the heart of each juryman throb a bit faster as he recalled examples of the animal's wonderful devotion. There were few dry eyes in that audience. Vest himself, the man who afterward gave hundreds of addresses in the United States Senate, could not know, when a verdict for the plaintiff was announced, that he had built a greater memorial there in a commonplace courtroom than he would ever establish in any legislative hall.

GLASS TAKES SEAT TODAY

Senator Underwood Gains Another Supporter For Democratic Leadership

Carter Glass will leave the Treasury today as soon as his successor, Secretary Houston, is sworn in, and go to the Capitol to assume his duties as Senator.

Glass's entry into the Senate gives Senator Underwood another supporter in his contest for the Democratic leadership with Senator Hitchcock. Glass said last night that he would cast his vote for Underwood in this fight.

While Hitchcock and Underwood were tied in the votae for leader in the last Democratic caucus, Glass's advent will not imply necessary victory for Underwood, since Senator Johnson of South Dakota, a Hitchcock supporter, was absent and unpair for this vote. With both Johnson and Glass present, a tie will result. There have been no public breaks in the forces supporting the two candidates, and as the matter stands, the deciding vote still rests with Senator Hoke Smith of Georgia, who declined to vote in the last caucus.

VOTE CONFIDENCE

Paris, Feb. 2.—The cabinet of Premier Millerand was given a vote of confidence in the chamber of deputies yesterday at a session attended by virtually all the members. The vote was 510 in favor of the ministry to 70 against it and with no abstentions from voting.

FEARS THEATER MAY GO

Actors' Publication Points to Wave of Reform

New York, Jan. 31.—Concern lest the theater be next attacked by "prohibition" reformers is expressed in the current number of Equity, the official organ of the Actors' Equity Association, cirulated here yesterday.

"The hectic spirit of 'reform' is in the air," says the publication. "The 'lottery evil' had to go; horse racing faces the prospect of being completely suppressed, dancing in public places has been interfered with as a reputed evil; the evil of smoking is being made much of, and the theater must be prepared to be singled out as the next on the list of 'social excrescences' to be attacked."

How Much Does a Good Watch Cost?

THE automobile has been instrumental in teaching us to figure costs.

The purchase price—plus the upkeep—divided by the years of service—gives you the actual cost.

On that basis a good watch is the cheapest thing of value that you can own. A good watch is a necessity and will last a lifetime.

VIRGINIA NEWS

Dr. Peter Winston, 84, prominent in State, civic and political affairs, died at his home in Farmville last week after an illness of more than three months. He was a native of Chesterfield County. He practiced medicine in Farmville for about 660 years, and was the town's first democratic mayor, for three terms a useful member of the Legislature from Prince Edward, and at time of his death was a member of the State Board of Charities and Correction and of the board of trustees of Hampden-Sidney College. Dr. Winston was a prominent member of the Baptist denomination and took a keen interest in the welfare of his church.

Representative Britten. Republican, Illinois, a member of the House Naval Committee, in a statement issued last week, declared the committee investigation beginning at Norfolk, February 18, was for the purpose of determining whether the naval facilities at Hampton Roads "should be scrapped at once or allowed to remain a silent existence under continued appropriations for maintenance." Representative Britten said: "The United States government has expended some $240,000,000 in the vicinity of Norfolk, Va., on various war activities for the army and navy. and it now develops that a very large portion of this moeny was ruthlessly squandered, with very little attention being paid to the national Treasury nor the sources from which this tremendous expenditure must eventually come."

R. Max Cockrill, of the firm of Cockrill and Co., of The Plains, Fauquier county, was instantly killed Friday afternoon at his home, when an acetylene gas tank he was sawing with a blow torch exploded. Mr. Cockrill was mutilated beyond recognition, his head being severed from the body. The building was partially wrecked. Only a few months ago his father lost his life in a fire which destroyed the store and this was shortly followed by the death of his mother.

News has been received in Fredericksburg of the death of Prof. G. Arnaud, aged 82, for more than 35 years a resident of Fredericksburg, which occurred a few days ago at his home in Buckland, Ga. Prof. Arnaud was born in France, near Paris, his full name being Arnaud Bournonville. He came to America in 1878 and settled in Charlottesville, and after 5 years came to this city, where he lived until a few months ago, when he and Mrs. Arnaud moved to Atlanta to join William E. Arnaud, Prof. Arnaud's stepson. Prof. Arnaud was at one time a member of the faculty of Fredericksburg College.

Shadrack Goode, colored, was shot and instantly killed at Lambert's Point coal piers, Norfolk, by Special Officer W. H. Hornburger, of the Norfolk and Western Railway while attempting to evade arrest. The negro had escaped from the Norfolk county jail in Portsmouth on November 28, where he was being held in connection with the murder of Ollie Miars also colored.

More than 500 Washington and Lee students signed pledges Friday whereby each engaged to labor two hours each week between April 1 and June 1 on the enlargement of the Wilson Athletic Field. The project was proposed by President Henry Louis Smith. By translating their loyalty into actual service the students will solve the labor problem and save thosands of dollars for the university. The workers will be fully organized within a few weeks and the enlargement of the athletic field will be begun as soon as weather permits. It is said that other projects to be undertaken by student labor are being planned.

SEVEN PERISH IN FIRE

Mother and Four Children Victims of Apartment House Blaze

Newark, N. J., Feb. 2.—Caught in a trap of flames that spread so rapidly they were unable to reach the windows of their third floor apartments, seven persons were burned to death yesterday in an apartment house fire which demolished a double tenement on 15th avenue.

Another probable victim is Frank Adask, 15, whose back was broken when he sprang from a window on the third floor before the firemen had stretched a life net. He was reported to be in a dying condition at the City Hospital.

The boy was warned by the fire men not to jump until the net was spread, but the flames at his back drove him to risk everything rather than remain to be burned to death.

Mrs. Helen Rautman, a tenant of the second floor, jumped to the street in her night gown. Then she screamed to her husband, William, to toss their 14 months' old baby to her. The baby was dropped from the window and successfully caught by the mother.

Rautman then climbed backward from the window to drop to the ground. In some manner the window catch became unfastened and the sash dropped upon his neck, pinning him fast until firemen rescued him. He would have strangled had not the assistance been prompt.

SLAYS WIFE AND BABE

Then Deranged Man Puts Bullet in His Own Brain in Cleveland Home

Cleveland, Ohio. Feb. 2.—Mrs. Edith Bullman and her 5-months old daughter, Pauline, were shot to death early Saturday and the husband and father, Martin, was reported dying in a hospital with a bullet in his brain.

Police believe Bullman, temporarily deranged by influenza, from which all three members of the family have been suffering for a week, first killed his wife and baby and then shot himself.

STOP ITCHING ECZEMA

Penetrating, Antiseptic Zemo Will Help You

Never mind how often you have tried and failed, you can stop burning, itching eczema quickly by applying Zemo. Furnished by any druggist for 35c. Extra large bottle, $1.00. Healing begins the moment Zemo is applied. In a short time usually every trace of eczema, tetter, pimples, rash, blackheads and similar skin diseases will be removed.

For clearing the skin and making it vigorously healthy, always use Zemo, the penetrating, antiseptic liquid. It is not a greasy salve and it does not stain. When others fail it is the one dependable treatment for skin troubles of all kinds.

Stop Coughing!

The simplest, quickest and best way to stop coughing is to take *Foley's Honey and Tar.*

In it, you get the curative influence of the pine tar and other healing ingredients, together with the mollifying and laxative effect of honey.

Foley's Honey and Tar helps coughs and colds, bronchial and la grippe coughs, tickling throat and hoarseness. It is good for croup and whooping cough. It does not contain morphine, chloroform, or any other drug you would not want to give children, delicate persons or grown-ups. *Do not accept a substitute.*

"We have used Foley's Honey and Tar in our home for several years, and find it almost invaluable for the cure of coughs and colds, and especially for croup with children. They won't take any other kind. We are never without it in the house and can not too highly recommend it for coughs, colds or croup, for either grown up people or for children."—T. J. McCall, Athens, Ohio.

TO HOME BUYERS

In this day of thrift it is the wise man who secures his home by adequate life insurance to cancel the mortgage in event of his death. The buyer is required to carry fire insurance with the policy assigned to the seller, and the home may never burn. Isn't there as great need for life insurance on the man who is to pay for the home, for he must die some time, when, no one knows. We have liberal policies at very low rates. Carrying a Ton a Mile for less than a Cent

Freight rates have played a very small part in the rising cost of living.

Other causes—the waste of war, under-production, credit inflation—have added *dollars* to the cost of the necessities of life, while freight charges have added only *cents*.

The average charge for hauling a ton of freight a mile is less than a cent.

A suit of clothing that sold for $30 before the war was carried 2,265 miles by rail from Chicago to Los Angeles for 16½ cents.

Now the freight charge is 22 cents and the suit sells for $50.

The cost of the suit has increased *20 dollars*.

The freight on it has increased only *5½ cents*.

Other transportation charges enter into the cost of the finished article—carrying the wool to the mills and the cloth to the tailors—but these other charges amount to but a few cents more.

A given unit of any commodity will buy more transportation now than it ever did before in the history of the country. A ton of steel or a bushel of wheat will buy more transportation now than ever before.

Walker D. Hines
Dir. Gen'l of Railroads

The $10 pair of shoes that used to sell for $5 goes from the New England factory to the Florida dealer for a freight charge of 5⅔ cents—only one cent more than the pre-war rate.

Beef pays only two-thirds of a cent a pound freight from Chicago to New York.

American freight rates are the lowest in the world.

GIRL HACKS ADMIRER

Resenting Attentions Forced on Her Woman Attacks Man; He May Die

Trenton, N. J., Feb. 2.—Infuriated because he persisted in his unwelcome attentions upon her, Mrs. Antonenna di Frank, 19 years old, slashed Philip Orlando, 24, across the face with a razor Thursday morning at State and Warren Sts, one of the principal business corners. The man is in McKinley Hospital, where he is said to be dying. The woman's attack was made while scores of persons looked on, powerless to prevent the assault because of its suddenness.

According to the police, Mrs. di Frank said that she was on her way to work when Orlando approached her in front of the Trenton bank and told her that he could not live without her. She pleaded with him to cease annoying her and when he persisted in his impassioned supplications, she drew a razor from her pocket and slashed him across the face from his ear to chin Orlando, with blood streaming from the gash, staggered shrieking a few steps and fainted in the arms of patrolman who was standing within a few paces of the couple.

Still clutching the razor in her hand Mrs. di Frank fled down Warren street with patrolman and a crowd of spectators in pursuit. In the middle of State street her foot caught in a trolley rail and she pitched forward on her face. The razor flew from her hand and the policeman seized her.

SHOT TO DEATH

Grocer Killed by Mysterious Assailants Who Scorned Robbery

Port Chester, N. Y., Feb. 2.—Thomas Keane, manager of a chain grocery store here, was shot and killed by unidentified assailants Saturday night. Seven bullets were fired into his body from two weapons. Robbery apparently was not the motive, the police say, as the day's receipts were found intact.

Mrs. Anna Drough, who lives over the store, told the police she heard a yell about 11 o'clock and sounds of a scuffle. Friends accompanied her to the store here. They found the door open and Keane's body a few feet from the entrance. One of the shots had been fired so close that the victim's clothing caught fire.

KILLS NIECE AND SELF

Bodies Found Frozen Saturday Morning in Pennsylvania

Connellsville, Pa., Feb. 2.—Infatuation of a middle aged man for his own niece, investigation shows lay back of the tragedy revealed Saturday when the bodies of Chas. Thorp, 45, of Hyndman, and his 14 year old niece, Lilah Brewer, of Layton, near here, were found frozen to blood stained ice at the roadside between Perryopolis and Layton.

Reports were to the effect that the man and girl had been murdered and robbed, but this theory was exploded yesterday by Coroner S. H. Baum, who says the evidence is overwhelmingly that Thorp shot the girl and then himself.

Fifteen cartridges similar to those taken from the bodies were found in a pocket of the coat worn by Thorp. A revolver was found today near where the two bodies were discovered huddled together.

Coroner Baum yesterday went to the home of Oliver Brewer, father of the dead girl, and learned that Thorpe, strangely in love with Lilah, had pleaded with her to elope with him. Mrs. Brewer, Thorp's sister, discovering this, forbade the man to come to the Brewer home.

BRITISH IN GERMANY

1,000 More Arrive and a Burgomaster Has to Quit

Flensburg, Feb. 2.—Mayor Todsend, the Germans burgomaster, who was ordered by the Interallied Commission to quit the plebiscite area in Schleswig, left by automobile yesterday afternoon to the disappointment of a large crowd which gathered at the railway station to bid him goodby. There was much German resentment over his deportation and a company of British troops was lined up at the station to prevent disorder, but the crowd quietly dispersed when it learned the mayor had left town.

Nearly 1,000 British troops landed at Mervig several days ago were brought here today, and the most of them will be posted in small towns near this city.

Oswego Trolley Lines Rolling Stock Lost in $200,000 Blaze

Oswego, N. Y., Feb 2.—Fire caused by the explosion of a gasoline torch early yesterday, destroyed practically all of the rolling stock used in the operation of the Oswego trolley lines and caused a loss estimated at two hundred thousand dollars.

Firemen fought the blaze in the big trolley barn with the thermometer 20 degrees below zero.

PIMPLY? WELL, DON'T BE.

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 10c and 25c.

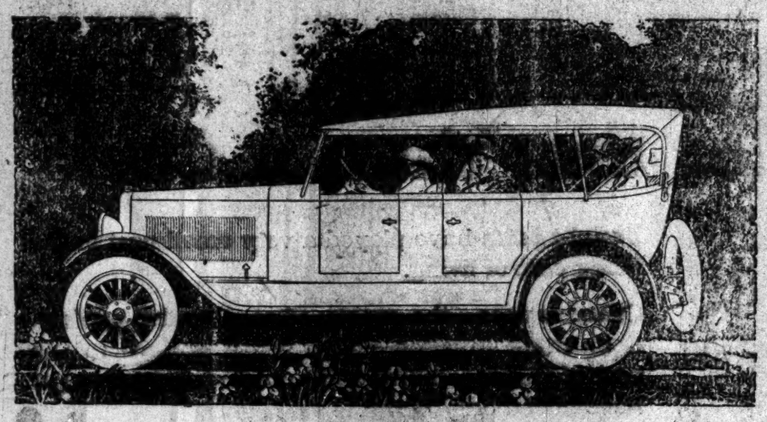
CHANDLER SIX

Famous For Its Marvelous Motor



Chandler Strides into Full Leadership

IF there has ever been any question as to Chandler leadership of the medium-priced fine car field, it is answered now. The great Chandler Six is sweeping its market. It displaces less efficient cars. It steps in to serve those who previously have chosen only high-priced cars. And it pleases everywhere.

From two thousand to three thousand discriminating Americans bought Chandler cars—open and closed—every month this Fall. And at no time has the demand been fully met. Thousands have waited months for their new Chandlers, and have felt repaid for waiting.

Nothing could more clearly show the regard in which America holds the Chandler Six, than the patience with which these thousands waited for weeks and months for their Chandlers. They waited because they knew what they were waiting for—because they knew it was *worth* waiting for.

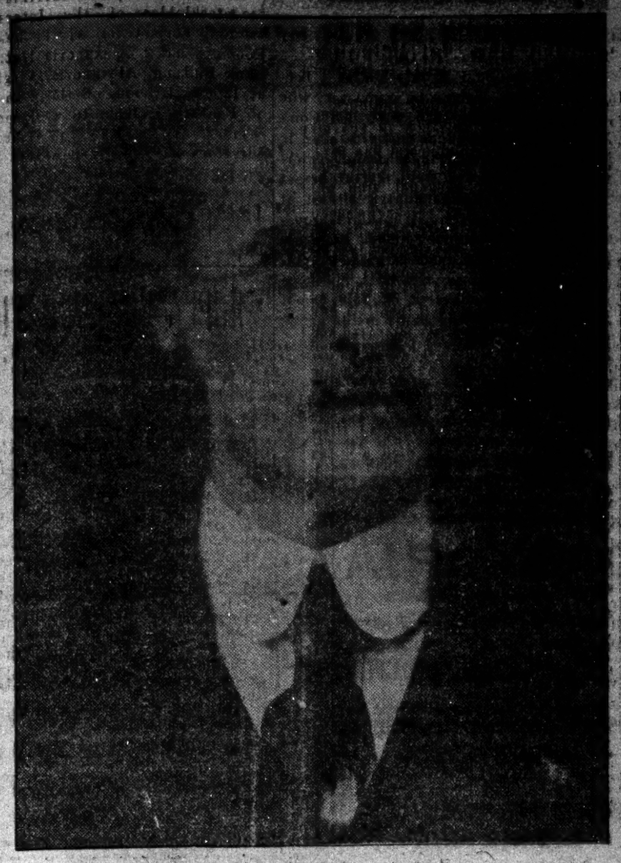
Children's Banks.

An example of a successful public school savings-bank system is to be found in Nottingham, England, where the institutions are conducted as far as possible in the same manner as ordinary banks, thus not only adding to their educational value, but creating in the minds of the youthful depositors a feeling that their financial houses are of as much importance as those patronized by their elders. Books in which are kept records of deposits, amounts withdrawn, and balances due are used by the children. Deposits are placed in local banks, and the accounts are audited quarterly. Once each week deposits are received and withdrawal orders paid teachers acting as tellers. Sums as low as 2 cents are accepted. There are 104 of the banks in Nottingham with 15,234 depositors, and with aggregate deposits of $19,128.—Popular Mechanics Magazine.

Expect to Uncover Treasures.

Mullingar, capital of County Westmeath, Ireland, is on the tip-toe of excitement because of a hunt for treasure trove. Gold coins of great size have been found in an old passage way discovered under a field. They bear insignia of currency "that undoubtedly have Ogham origin." Ogham inscriptions are found only on ancient monuments in Ireland and other Celtic countries. Their origin is wrapped in mystery. Cooking utensils have also been found. They are of material far better than that used in these out-of-date times. But this is only a beginning. The passage has just recently been struck by workmen carrying out excavations for drainage. There are strong indications that treasures trove and valuable mementoes of past ages are to be found in the passage, which it is believed must lead to an earthen fortification.



HON. W. McDONALD LEE OF VIRGINIA,
National Director for the Campaign for National and World Wide Prohibition

SHOWS NEED FOR "DRY" CAMPAIGN

INTERVIEW WITH DIRECTOR W. McDONALD LEE.

LAW ENFORCEMENT FIRST

$9,000,000 To Be Spent In Fighting Bolshevism By Americanizing Foreigners.

W. McDonald Lee, National Director of the great campaign launched by the Anti-Saloon League of America, has made the following statement showing the objects of the campaign, why it is necessary, and to what purposes the funds raised will be devoted.

"We have three great aims in this campaign," declared Mr. Lee, "all of which will appeal to every patriotic American who has the welfare of his own country at heart and any regard for the moral and spiritual welfare and progress of our neighboring nations. These aims are as follows:

(1) To aid home Law Enforcement (requiring about nine million).

(2) To Americanize the Foreigner (requiring about nine million).

(3) A Dry World by 1930 (including Mexico and West Indies).

"A fourth of the money raised in the campaign is to be left in the State for object one, "Law Enforcement," which means creating public sentiment for observance of law, and demand for officers who will enforce the law. Internal Revenue Commissioner Daniel Roper and Federal and State officers nearly everywhere invite such co-operation by our organization and similar ones. Liquor interests have organized—it is said with $400,000,000 fund—twenty-four States, in effort to elect a Congress that will increase alcoholic contents from one-fourth of one per cent. to ten, or even forty per cent., and thus defeat the aims of Prohibition and nullify the Eighteenth amendment.

"Another fourth of the money, for object two, goes to the Anti-Saloon League of America for work among aliens in this country. We must make good and law-abiding citizens of those foreigners who stay with us, through education, literature and speakers in the only language they may know. While harangued by anarchists and booze-advocates they remain a menace to our institutions. These scattered colonies within our borders can be reached only through the systematic and studied propaganda of the National League.

"Such of the remainder of the funds as may be determined by the State and National Leagues is to be devoted to object three. All the world is now our neighbor. Five critical years have demonstrated that we are vitally affected by conditions elsewhere on the globe. One dollar's worth of liquor will counteract a hundred dollars of the money so generously given to missions by Baptists, Methodists, Presbyterians, Episcopalians and others. Let's help make effective these missionary gifts. The missionary pleads for our help against the emigrating liquor dealer and his wares that are hurrying to other shores.

"Under objects one and two the Anti-Saloon League seeks to remove the cause that Y. M. C. A., Red Cross, Salvation Army and other noble bodies are earnestly striving to remedy. With law enforcement, proper education and removal of temptation there will be less poverty, fewer dens of vice, a redemption from misery to women and children, and the work of those great organizations will be made easier and the quicker accomplished.

"Under object three it will be possible to "clean up" Cuba and the Bahamas from the liquor and vice contagion that is already affecting our shores. Mexico also, because of which probably a hundred million dollars a year is spent by our American Government to keep the peace, would be less a disturbing element if drink were abolished and this can be accomplished. As an aid in preventing Bolshevism from spreading to our shores, some countries of the Old World should be made acquainted with our customs and laws and their citizens taught to respect such before emigrating here."

INTEREST IN CAMPAIGN WIDE

SPREADING EVERYWHERE, AWAKE TO NEED FOR LAW ENFORCEMENT. WINCHESTER LEADS STATE.

County Seat of Frederick County Wins Fight For First And Best Organization.

While the campaign for law enforcement and world evangelization has met with the most encouraging results in Virginia, states further South have seized on the idea with even more enthusiasm and determination. This was the statement made at Virginia headquarters, in Murphy's annex, by Dr. L. A. Cox on his return from Atlanta.

"A supreme court judge is serving as city chairman in Atlanta," said Dr. Cox, "and his headquarters is the busiest place in that busy city. Atlanta is thoroughly alive to the urgent necessity for enforcing our own laws and to the moral obligation of Americans to help the other peoples of the earth in their gallant fight against alcoholism."

Dr. Cox was even more impressed with the interest of the general public in every state he passed through. "People were talking about it on the trains," he said, "all the way from Richmond to Atlanta. I was not surprised at the interest manifested in the Southern States, however, for many of them have had prohibition for some time and the boldness of illicit distillers and bootleggers has brought home to every citizen the need for a concerted stand for law and order."

In Virginia, Frederick county and Winchester, the county seat, have earned the distinction of being the best organized community in the State. Other districts have completed their organization by this time, but Frederick goes the palm for being the first to report success. The size of the committee of workers in this county and in Winchester is sufficient proof of excellent organizing, but the personnel of both bodies is a guarantee that the best citizens of the community have pledged their support to the campaign of the Anti-Saloon League. State Senator Harry Flood Byrd heads the list of workers in which are the names of the most influential men and women of the city and county.

Editor's Tabooed Subject.

In order to draw the line clearly and have it understood, this column will not in the future permit the slightest jocular reference to the following subjects:

Dairy—Cow, milk, pump, butter fat and products.

Paradise—Adam and Eve, particularly reference to Eve's clothes and "turning over a new leaf."

Domestic—Mother-in-law, wife's relatives, cost of food, hypochondria. (Servant girls may be joshed without using policemen.)

Politics—No plays on graft; kidding president about Bryan, which is passe; as little reference as possible to Burleson, and then in parliamentary language.

Materia Medica—No allusions to illusions; doctor bills and substitution of plain water for aqua pura forbidden. All doctors and druggists are as prompt as duelers and dribblers can be, and we shall therefore respect their weakness.—Richmond Times-Dispatch.

A TRIUMPH IN RECORDS

Again the House of Brunswick has scored a distinct hit.

After months of preparation the long expected Brunswick Records are now ready.

Thus, one of the foremost phonograph makers brings into the field a new line of records which is bound to win great popularity.

Brunswick policies have always been aggressive and it is natural that the trade has been expecting new developments when Brunswick went into record making.

The House of Brunswick has forged ahead in the phonograph world at a very rapid pace. When The Brunswick was announced, it was heralded as "All Phonographs in One," for it was the first large-ly advertised phonograph to play all records.

Its multi-record reproducer, the Ultano won friends everywhere because it plays each make of record according to its exact requirements.

Brunswick Records are different. They bring a new element into record-making. They not only bring fine artists and favorite selections but they introduce interpretations by noted directors. Thus Brunswick unites the talents of the artist with the genius of the composer.

The House of Brunswick is noted for doing new and unusual things. Although 74 years old it has kept up to date generation by generation. And today in the phonograph field there is no success more phenomenal.

All who have heard Brunswick Records predict another Brunswick triumph. Their popularity is bound to be nation wide, and music lovers everywhere will find in Brunswick interpretations new tone values, new qualities of execution.

AMERICAN ACE KILLED

Capt. F. E. Kindley Meets Death at Kelly Field No. 2.

San Antonio, Texas, Feb. 2.—Capt. Field E. Kindley, American ace and commander of the 94th Aero Squadron, was killed instantly in aerial maneuvers at Kelly Field No. 2 yesterday afternoon.

Captain Kinley's home was at Gravette, Ark.

The accident occurred while a group of planes were in practice formation preparing for an exhibition schedule in honor of General Pershing's visit Tuesday.

Captain Kindley's machine fell when he was about 50 feet above the ground. He was crushed and burned.

Captain Kindley was one of the Air Service Officers summoned before the House sub-committee investigating the Air Service recently. He came to Kelly Field from Mitchel Field, Long Island, one month ago.

WORKMAN LEFT TO FREEZE

Employee Found With Fractured Skull and Hand and Feet Frozen

Pittston, Pa., Feb. 2.—After he had been struck over the head with a coupling pin, robbed of his pay envelope and left to lie unconscious in the cold all night, Michael Fritz, aged 55, of Plainsville, an employee at No. 4 Colliery of the Pennsylvania Coal Company, was found yesterday morning near the colliery. He is in Pittston Hospital with a fractured skull and with both hands and both feet frozen. Little hope is entertained for his recovery.

A blood-smeared coupling pin is the only clue left behind by Fritz's assailant. The men at the colliery received their pay Saturday and as Fritz's envelope was missing when his clothes were searched yesterday morning it is evident that robbery was the motive of the crime.

SPAIN OUT WITH MOROCCO

Indications That King Alfonso Plans a Military Movement

Madrid, Feb. 2.—King Alfonso yesterday afternoon signed decrees appointing Gen. Fernandez Silvestre commandant general of Melilla and General Manzano commandant general of Ceuta.

General Silvestre's appointment is taken to indicate that a military operation is imminent on the coastal region of Morocco, between Melilla and Ceuta, with the object of completing the pacification of the Riff country.

The Aribuna says that, as a result of differences between the Morccean authorities and the interpreter of the Spanish legation at Tangier, the belief prevails that relations between the local authorities and the Spanish minister have been broken off.
